

# DID YOU HEAR?

## THE RSV VACCINE IS NOW AVAILABLE!

### WHAT TO KNOW

**Respiratory Syncytial Virus (RSV)** is a common respiratory virus that usually causes mild, cold-like symptoms.

#### Who

People ages 60 and older **may** get the vaccine. Those over 75 years **should** get the vaccine.

#### Why

RSV can be dangerous for older adults, leading to health complications. The vaccine protects you against severe cases of RSV.

#### When

The vaccine is available now. Protection should last through the winter season so don't delay.

#### How much

The RSV vaccine is covered by Medicare Part D and most major insurance plans.

**Talk to your health care provider or pharmacist about getting the RSV vaccine.**
